

Save the Lime Trees **open space** and put a **community park** into Hornsey Park

PMRA wants to create a **Community Park** and save the **historic lime trees** open space on Hornsey Park Road, as feature of our area for the past 125 years. **The Lime Trees Community Park** will be the space for the community to **come together, be active and feel good** about where we live. Linking old with the new, it will be part of a new 'great outdoors' and an escape in the midst of our crowded area, making a connection and ready to welcome the Heartlands community as it arrives.

We are an area of **open space deprivation**: our community needs open space to grow and thrive: the **opportunity** to achieve something of lasting value will never exist again: developers and planners must not be allowed to take and destroy this precious open space .

Please support us and help create a community open space that will change our area for the better and build a stronger, safer, healthier, friendlier community.

Before we get started, we need your ideas and support:

- ❖ how do we make the park and garden attractive to all ages but particularly children?
- ❖ what would make it a place you'd want to come to with family and friends?
- ❖ how can we make build a local group of neighbours to look after it?

parks to be small areas of inviting public space providing relief from the hustle and bustle of the city. These spaces should have trees and greenery; they should be open to all; they should provide places to sit and relax, for people to come together; and they should contribute to making the city friendlier, greener and more resilient.

Making a community space, with a strong sense of ownership

Would you help plan what to do so that we get what we want and get it right

Would you join a group of neighbours and look out for the space, helping to keep it always looking its best

Our community park should make us feel good about where we live

Do you have any ideas on how to improve this valuable space and help make it a success?

.....
.....
.....

Help make the area friendlier, greener and our community stronger

Can we/ would you like us to contact you again about the project?
